Continuation of Attachment(s) 6). Other: Election of Species and Subspecies.

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species-I: Figure-23;

Flower pot cover with an integral skirt portion.

Species-II: Figure-27;

Flower pot cover with a skirt portion extending from
the outer surface of the base portion.

Species-III: Figure-29;

Flower pot cover with a skirt portion extending from
the inner surface of the base portion.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, independent claims 1 and 51 are generic.

Art Unit: 3644

Applicant is further required to elect subspecies as outlined below with the election of a Species I-III outlined above; for example, applicant elects Species I and subspecies A1, B1 and C1 for prosecution.

Subspecies A: Base bottom embodiments.

A1: Closed bottom; not depicted, but claimed

A2: Open bottom; not depicted, but claimed

A3: Partially open bottom; Figures 23,27,29

Subspecies B: Decorative ornamentation embodiments;

(not depicted, but claimed)

B1: Printed

B2: Embossed

B3: Etched

B4: Molded texture

Subspecies C: Sleeve portion embodiments (as claimed);

C1: Open upper end; Figures 23,27,29.

C2: Closed upper end; (claimed, but not depicted).

C3: Detachable from ("remainder of" ?) cover or skirt;
(claimed, but not depicted).

Art Unit: 3644

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

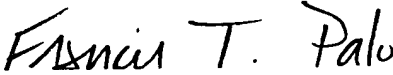

Art Unit: 3644

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
